

WE SKI ON THE *ROUTES BLANCHES* THIS WINTER

Sainte-Adèle, October 28th 2024 – The *Société de plein air des Pays-d'en-Haut* (SOPAIR) is particularly proud to confirm that the *Routes blanches* are now available to the public. Come live the experience of skiing from village to village in the Laurentians' backcountry, just like Jackrabbit in the early 1900's. And yes! Your journey is already available for booking on lesroutesblanches.com

The three routes proposed all require cross-country skiing competence to be in good shape : we are talking about a Nordic winter adventure here ! But you can still adjust the experience to your capacity and taste. Choose the height of the challenge, the landscape crossed, the communities visited, and the comfort level needed when the ski day ends. According to the route chosen, the offer includes options for a guided formula, with an experienced professional, or a self-guided formula in which you will be more autonomous in the trails, as well as in your housing and meal selection among the propositions offered.

Interested in knowing more? Join the information session on Novembre 12th at <https://pleinairpdh.com/lesroutesblanches/itineraires/parcours-est/reservez-votre-sejour-parcours-est/>.

For more details about the 3 routes options, about the professionally guided or self-guided formulas, the complementary services, and the dates available, see lesroutesblanches.com. And book quickly! It makes an unforgettable Christmas present.

The *Routes blanches* are made possible, this winter, thanks to the financial support of *Plan montagnes*.
